Forecast for Thursday 03 Sep 2020

Weather: After a wet start to the day, the rain will clear southwards to leave much drier and brighter conditions by the middle of the morning. It will remain generally dry with occasional sunny spells during the rest of the day and it will feel pleasantly warm in the sunshine. A few well scattered showers are possible during the afternoon but most areas will remain dry. It will be a windy day, with the winds especially strong at first when there is a risk of gales over the higher routes.

Chance of cloud free mountain/hill tops above 800m: Less than 20% at first, improving to 80% through the first part of the morning as the cloud rises and breaks to around 900-1000m. Remaining around 60% over the Snowdon Range through much of the day with periods of cloud above 800m likely at times and lowering to 40% during the evening as more persistent cloud around the 700-800m mark develops on west facing slopes.

Visibility: Poor during the rain at first but soon improving to become very good with excellent visibility making distant hills clear to see.

Freezing Level*	2500m	2100m	2200m	2000m	2100m	2000m	1900m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

The best of the sunny spells will be across the Llyn Peninsula and also across north Snowdonia.

Forecast for Friday 04 Sep 2020

Weather: A generally dry day is expected with some bright spells at times although a few showers are possible. These are most likely during the afternoon and evening and a few heavier ones may occur.

Maximum wind: Westerly 20mph gusting 35mph.

Chance of cloud free mountain/hill tops above 800m: 70%. Patches of cloud above 700-800m, lifting to around 800-900m during the afternoon.

Visibility: Very good with excellent views and distant hills clearly definable.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 17 Celsius.
At 800m: Plus 9 Celsius.
Freezing level: Above the summits.
